TERMS AND CONDITIONS

The meter is the property of Global Water (hereafter “the Utility”) and shall remain the property of the Utility and shall be returned to the Utility on the earlier of the temporary construction water service account or immediately upon demand upon the Utility. In the event the meter is damaged and/or stolen, the customer will be responsible for all cost of repair and/or replacement. Meter deposit will be refunded at the termination of service less any outstanding balance due to the Utility for water service/meter repair and/or replacement.

- No fitting shall be removed from a hydrant or meter for any reason
- Customer will provide any adaptors needed to connect hoses to meter
- In the event a meter is damaged, causing a water leak, the Utility shall estimate the water loss and bill the customer
- Meter will be locked or pulled if payments are not received by the due date
- Meter will not be removed or relocated for any reason by the customer; the customer must contact the Utility for removal or relocation
- If the meter or backflow device is tampered with, the deposit will be forfeited, and the meter will be locked
- Water flow may be decreased or shut off without notice at the discretion of the Utility
- Daily flow may be capped at a certain level to maintain service area operational capability at the discretion of the Utility
- Use of water storage tanks (such as Klein Tank) may be required by the Utility as a condition for service
