About Global Water Resources

Global Water Resources, Inc. is a leading water resource management company that owns and operates 16 utilities which provide water, wastewater, and recycled water services. The company’s service areas are located primarily in growth corridors around metropolitan Phoenix. Global Water recycles nearly 1 billion gallons of water annually.

The company has been recognized for its highly effective implementation of Total Water Management (TWM). TWM is an integrated approach to managing the entire water cycle by owning and operating water, wastewater, and recycled water utilities within the same geographic area in order to maximize the beneficial use of recycled water. TWM includes additional smart water management programs such as

remote metering infrastructure and other advanced technologies, rate designs, and incentives that result in real conservation. TWM helps protect water supplies in water-scarce areas experiencing population growth. To learn more, visit www.gwresources.com.

Cautionary Note Regarding Forward-Looking Statements

This press release includes certain forward-looking statements which reflect the company's expectations regarding future events. The forward-looking statements involve a number of assumptions, risks, uncertainties, and other factors that could cause actual results to differ materially from those contained in the forward-looking statements. These forward-looking statements include, but are not limited to, statements concerning, our strategy, acquisition plans and our ability to complete additional acquisitions, and other statements that are not historical facts as well as statements identified by words such as "expects", "anticipates", "intends", "plans", "believes", "seeks", "estimates", or the negative of these terms, or other words of similar meaning. These statements are based on our current beliefs or expectations and are inherently subject to a number of risks, uncertainties, and assumptions, most of which are difficult to predict and many of which are beyond our control. Actual results may differ materially from these expectations due to changes in political, economic, business, market, regulatory, and other factors, including the duration and spread of the COVID-19 pandemic, its severity, the emergence and severity of its variants, the actions to contain the virus or treat its impact, such as the availability and efficacy of vaccines (particularly with respect to emerging strains of the virus) and potential hesitancy to utilize them, restrictions on travel and transportation, and how quickly and to what extent normal economic and operating conditions can resume. Accordingly, investors are cautioned not to place undue reliance on any forward-looking statements, which reflect management's views as of the date hereof. Factors that may affect future results are disclosed under the headings "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our filings with the Securities and Exchange Commission (the "SEC"), which are available at the SEC's website at www.sec.gov. This includes, but is not limited to, our Annual Report on Form 10-K for the year ended December 31, 2020, our Quarterly Report on Form 10-Q for the quarter ended June 30, 2021, and subsequent filings with the SEC. We undertake no obligation to publicly update any forward-looking statement, except as required by law, whether as a result of new information, future developments or otherwise.
