CONTACT PERSON: _____ CITY/STATE/ZIP CODE: _____

E-MAIL: _____ OFFICE OR CELL PHONE #: _____

SERVICE ADDRESS: _____

CITY/STATE/ZIPCODE: _____ SUBDIVISION: _____

ASSESSOR'S PARCEL#: _____ PHASE: _____ PARCEL: _____ LOT #: _____

PURPOSE OF METER (Irrigation, Residential Home Service, Commercial Facility Service): _____

NOTE TO APPLICANTS: It is important that you differentiate between services that supply your facility and services that supply your irrigation systems so, that where applicable, the wastewater account will be established correctly.

- Check here if service will not have Global Water – Hassayampa Utilities Company sewer service.
- Check here if service will only have Global Water – Hassayampa Utilities Company sewer service. This is only applicable if your water utility is not Global Water – Belmont Water Company. The monthly rate for sewer service is based on the size of water meter(s). For sewer only service, you must also submit a list of each water meter for this parcel. See second page of application.

Customer Information

Before submitting a Meter Application, use the Service Inquiry form if you need to find out if your property is located in one of our service territories or to request a will-serve letter. A copy of the form is available at www.gwresources.com under the “Customer Resources” tab.

The provision of water and wastewater service is subject to the tariffs of the utility, as approved by the Arizona Corporation Commission. Copies of tariffs are available at www.gwresources.com under the “Customer Resources” tab. Water service is also subject to Title 14, Article 4 of the Arizona Administrative Code. Wastewater service is also subject to Title 14, Article 6 of the Arizona Administrative Code.

Each customer shall be responsible for maintaining all facilities on the customer’s side of the point of delivery in a safe and efficient manner.

Each customer shall be responsible for safeguarding all utility property installed in or on the customer’s premises for the purpose of supplying water to that customer.

Each customer shall exercise all reasonable care to prevent loss or damage to utility property, excluding ordinary wear and tear. The customer shall be responsible for loss of or damage to utility property on the customer’s premises arising from neglect, carelessness, or misuse and shall reimburse the utility for the cost of necessary repairs or replacements.

Each customer shall be responsible for payment for any equipment damage resulting from unauthorized breaking of seals, interfering, tampering or bypassing the utility meter.

Water and wastewater service is subject to the utility’s Terms and Conditions Tariff, available at www.gwresources.com under the “Customer Resources” tab.

Backflow Protection

Backflow protection from commercial/industrial customers is required prior to meter installation, as per the utility’s Cross-Connection or Backflow Tariff. Backflow protection may also be required for residential applicants. A copy of the tariff is available at www.gwresources.com under the “Customer Resources” tab.

The utility provides the backflow assembly only for temporary construction and hydrant meters. All other backflow assemblies will be installed, owned, tested, and maintained by the customer.

When a meter is set, if backflow protection is required, it is the responsibility of the customer to coordinate the testing of the backflow device by a certified backflow tester. Upon test completion, an electronic copy of the certification test report shall be submitted to the Backflow Prevention Department of Global Water at <https://www.gwresources.com/submit-backflow>.

For additional information please refer to Global Water’s backflow/cross connection program links under the “Construction Resources” tab at www.gwresources.com.

CROSS-CONNECTION SURVEY

Date: _____

Customer: _____

Water service address: _____

Does the property have (a/n):

Private operating well or other alternate water supply	YES <input type="checkbox"/>	NO <input type="checkbox"/>
Retention area (pond) supplied by potable water supply	YES <input type="checkbox"/>	NO <input type="checkbox"/>
Automatic irrigation system or other facility with potential for dispensing of chemical contamination	YES <input type="checkbox"/>	NO <input type="checkbox"/>
Thermal Solar energy system	YES <input type="checkbox"/>	NO <input type="checkbox"/>
Zoning for agricultural use or livestock (horses) related activity	YES <input type="checkbox"/>	NO <input type="checkbox"/>
All commercial business	YES <input type="checkbox"/>	NO <input type="checkbox"/>
Home business using possible hazardous material	YES <input type="checkbox"/>	NO <input type="checkbox"/>

If you answered “**YES**” to any of the above, you are required to **INSTALL** a Backflow prevention assembly. It must be **tested** at the time of installation and **ANNUALLY** thereafter. Reminder letters will be sent out each year prior to the anniversary date of the previous year’s test.

Type of device required:

- Livestock – Double Check Assembly
- All others – Reduced Pressure Assembly

Thank you for your assistance in the protection of your water supply.

The backflow prevention program is instituted and enforced to help supply all of our customers with potable water that meets the requirements of the Federal Safe Drinking Water Act.
