

To Our Valued Global Water – Rincon Water Company, Inc. Customers:

Global Water Resources, Inc. (Global Water) acquired Rincon Water Company at the beginning of 2022. We've been working diligently to rehabilitate the water system and engineering solutions to remediate water quality issues. Prior to Global Water's acquisition, Rincon Water Company was issued a consent order for serving water that exceeds regulatory limits for fluoride. There are other issues, to include storage tanks that are in disrepair and antiquated electrical systems. Additionally, the primary water distribution site is in a flood way, which requires equipment to be relocated out of the flood way. We are working hard to resolve these issues to ensure the Global Water – Rincon Water Company system serves compliant and reliable water for many years to come.

To resolve the issues, Global Water – Rincon Water Company, Inc. has filed an application to the Arizona Corporation Commission to request financing from the Water Infrastructure Authority of Arizona (WIFA). WIFA provides access to low-cost government financing for water infrastructure projects. In addition, sometimes WIFA will forgive some of a loan. Loan forgiveness would help reduce the rate impact of making these important and necessary improvements. The attached public notice provides details on the request and provides details on how you can view the application and participate in the matter.

We continue to work diligently on improving the Global Water – Rincon Water Company, Inc. water system and appreciate your patience as we take the steps necessary to make these improvements.

Sincerely,
