CROSS-CONNECTION OR BACKFLOW TARIFF AUG 22 3 41 PM '94

DOCUMENT
CONTROL

APPLICABILITY: All customers served by Lyn Lee Water Company

PURPOSE: To protect the public water supply from the possibility of contamination caused by backflow through unprotected cross-connections by requiring installation and periodic testing of backflow-prevention assemblies pursuant to provisions of Arizona Administrative Code (A.A.C.) R14-2-405.B.6 and A.A.C. R18-4-232.

REQUIREMENTS: In compliance with the rules and regulations of the Arizona Corporation Commission and the Arizona Department of Environmental Quality (ADEQ), specifically A.A.C. R14-2-405.B.6 AND A.A.C. R18-4-232 relating to backflow prevention:

1. Lyn Lee Water Company may require a customer to pay for and install a backflow-prevention assembly if A.A.C. R18-4-232.B or C applies.

2. A backflow-prevention assembly required to be installed by the customer under paragraph 1 of this tariff shall comply with the requirements set forth in A.A.C. R18-4-232.D and F.

3. Subject to the provisions of A.A.C. R14-2-407 and 410 and in accordance with paragraphs 1 and 7 of this tariff, Lyn Lee Water Co. may terminate service or deny service to a customer who fails to install a backflow-prevention assembly as required by this tariff.

4. Lyn Lee Water Company shall give any existing customer who is required to install a backflow-prevention assembly written notice of said requirement. If A.A.C. R14-2-410.B.1.a. is not applicable, the customer shall be given thirty (30) days in which to comply with this notice. If the customer can show good cause as to why he cannot install the device within thirty (30) days, Lyn Lee Water Company or Commission Staff may suspend this requirement for a reasonable period of time.

5. Testing shall be in conformance with the requirements of A.A.C. R18-4-232.F. Lyn Lee Water Company may require the customer to pay to have the backflow-prevention assembly tested as long as the Company does not require an unreasonable number of tests. Lyn Lee Water Company may also require the customer to pay for repairs to a backflow-prevention assembly.

6. The customer shall provide Lyn Lee Water Company with records of installation and testing. For each backflow-prevention assembly, and these records shall include:

- a. assembly identification number and description;
- b. location;
- c. date(s) of test(s);
- d. description of repairs and recommendations for repairs made by tester; and
- e. the tester's name and certificate number.

7A. In the event the backflow-prevention assembly does not function properly or fails any test, and a hazard as contemplated under A.A.C. R14-2-410.B.1.a exists, Lyn Lee Water Company may terminate service immediately and without notice. The backflow-prevention assembly shall be repaired or replaced by the customer and retested before service is restored.

7B. In the event the backflow-prevention assembly does not function properly or fails any test, or in the event that a customer fails to comply with the testing requirement, and A.A.C. R14-2-410.B.1.a is not applicable, the backflow-prevention assembly shall be repaired or replaced within fourteen (14) days of the initial discovery of the deficiency in the assembly or its function. Failure to remedy the deficiency or disfunction of the assembly, or failure to retest, shall be grounds for termination of water service in accordance with A.A.C. R14-2-410.
